

COMPACT EXCAVATORS
E85

STAGE V COMPLIANT

One Tough Animal®

QUALITY, FOR NON-STOP PRODUCTIVITY

The load sensing closed-centre hydraulic system has been fine-tuned for even smoother operations. This allows the operator to make repetitive, smooth and simultaneous movements, which result in great productivity for any kind of operation – such as track loading, trenching or general digging.

The optional 2-piece boom allows you to use your excavator in a wider range of job sites. The superior dumping height, long reach and close retraction – along with the minimal tail-swing radius – expand your possibilities across a variety of work sites.

1. The floating blade feature is standard for the product range, producing a perfect levelling result every time.
2. Arm-mounted two-directional auxiliary hydraulics, with optional 3rd (Clamshell) connection.
3. Extended grease intervals (up to 250 hours) mean less frequent machine inspections.

HIGH PERFORMANCE IN COMPACT PACKAGE

The minimum swing radius gives you the capability to work in confined areas. Upperstructure swing radius of 150 mm allows the operator to focus on the job, without having to worry about damaging the machine or surrounding area.

STAGE V COMPLIANT

Stage V engine

In compliance with the European engine emissions regulations, the Bobcat E85 is equipped with the Diesel Particulate Filter (DPF) and Diesel Oxidation Catalyst (DOC) exhaust after-treatments.

The automatic regeneration system that cleans the DPF can be turned off temporarily during operations in environments with fumes or other fire hazards.

COMFORT, FOR CONTINUOUS OPERATION

Class leading cab size is offering plenty of space and legroom while exposing the operator to less noise and vibration.

Joysticks with integrated thumb control for better metering of the boom and the bi-directional, proportional flow of auxiliary hydraulics.

Multi-functional instrument panel

The new 5.7" LCD colour panel screenshots:

1. Protection: password protection including multiple operator logins
2. Attachment: selectable auxiliary hydraulic flow settings for attachment operations
3. Maintenance: diagnostics, system status functionality and service intervals
4. Setup: multi-languages and screen brightness
5. Operation: fuel level, coolant temperature, engine RPM, date, time and more

Standard on the E85 excavator, the super deluxe seat, offers suspension, lumbar support and limitless adaptability for every operator. Adjust the seat and angle or position the joysticks exactly where you need them.

Ergonomic layout places operating system in front of the operator, where all the controls are at your fingertips.

With a floor mounted pedal, the operation of the 2-piece boom is simple and intuitive.

EASY TO SERVICE AND ACCESS

Largest cab entry/exit room in the market, reduced side channel and ergonomically positioned handles ensure simple and safe operator entry and exit.

Tilttable cab

In addition to the large right-hand side cover, the cab can be tilted forward, as needed, to improve service accessibility to the main hydraulic valve.

LIFTING CAPACITIES

	STANDARD DIPPERSTICK					LONG DIPPERSTICK					
RATED LIFT CAPACITY OVER BLADE – BLADE DOWN											
Lift Point Height [H]	Lift radius [R] (kg)			Max. radius [R] (mm)	Lift at max. radius (kg)	Lift radius [R] (kg)				Max. radius [R] (mm)	Lift at max. radius (kg)

E85 E85^{ARTI} — SPECIFICATIONS

E85

E85^{ARTI}

WEIGHTS

with ROPS cab, rubber tracks, standard

dipperstick, standard bucket (SAE J732):

weight with heavy counterweight

Additional weight for long dipperstick

Ground pressure with rubber tracks

8540 kg	9035 kg
8940 kg	-
60 kg	-
0.39 kg/cm ²	0.39 kg/cm ²

ENGINE

Make/Model	Yanmar/4TNV98C	Yanmar/4TNV98C
Fuel/Cooling	Diesel/Liquid	Diesel/Liquid
Number of cylinders	4	4
Displacement	3319 cm ³	3319 cm ³
Maximum power at 2200 RPM (DIN 6271)	-	-
Maximum power at 2100 RPM (DIN 6271)	44.3 kW	44.3 kW

PERFORMANCE

Digging force, dipperstick (ISO 6015)	4.25 ton	4.25 ton
Digging force, long dipperstick (ISO 6015)	3.57 ton	-
Digging force, bucket (ISO 6015)	5.8 ton	5.2 ton
Drawbar pull	64.7 kN	64.7 kN
Travel speed, low range	2.7 km/h	2.7 km/h
Travel speed, high range	4.7 km/h	4.7 km/h

HYDRAULIC SYSTEM

Pump type	One engine-driven tandem axial piston pump and one engine-driven gear pump	
Pump capacity	151.00 L/min	151.00 L/min
Auxiliary flow	95.00 L/min	95.00 L/min
System relief pressure for auxiliary circuits	250.00 bar	250.00 bar

SLEW SYSTEM

Boom swing, left	70°	70°
Boom swing, right	55°	55°
Slew rate	9.5 RPM	9.5 RPM

FLUID CAPACITIES

Cooling system	10.0 L	10.0 L
Engine lubrication plus oil filter	10.2 L	10.2 L
Fuel reservoir	110.00 L	110.00 L
Hydraulic system	148.00 L	148.00 L

ENVIRONMENTAL

Noise level LpA(EU Directive 2000/14/EC)	71 dB(A)	71 dB(A)
Noise level LWA(EU Directive 2000/14/EC)	98 dB(A)	98 dB(A)
Whole body vibration (ISO 2631-1)	0.32 ms ⁻²	0.32 ms ⁻²
Hand-arm vibration (ISO 5349-1)	0.82 ms ⁻²	0.82 ms ⁻²

STANDARD FEATURES E85

2300 mm dozer blade	TOPS/ROPS cab *
450 mm rubber track	Boom & arm safety valves
5.7 inch LCD screen	Harness for rotating beacon
Engine/hydraulic monitor with shutdown	Fully adjustable air conditioning
Fingertip auxiliary hydraulic control	Overload warning device
Control console locks	Sun visor
Hydraulic joystick controls	Left rear view mirror
Two-speed travel	Electric refueling pump
Lockable storage compartment	Auto idle
Horn	Auto shift travel
Work lights	Auxiliary hydraulics (1st and 2nd circuits)
Retractable seat belt	Auxiliary line on arm with quick couplers
Suspension seat with high back	Warranty: 24 months, 2000 hours (whichever occurs first)
Travel motion alarm	

OPTIONS

Steel tracks	Long dipperstick
Third auxiliary hydraulic line (Clamshell Piping)	

* Tip Over Protective Structure (TOPS) — Meets requirements of ISO 12117
